

Tudor Grange Academy Redditch

## Criminology:

You should have chosen this course because you have a natural interest in exploring and understanding why people commit crime. You should have an interest in subjects like Sociology, Psychology and Law- because this subject covers all of them!

The task that we would like you to bring with you on your first Criminology lesson will be: Research and create a timeline that plots the different stages to go through in order for a crime to be made. Focus on the UK and outline a brief explanation as to what happens at each stage, so that a law becomes a law.

As a second task, select two other countries and make some notes on how they differ in making and creating Laws, to the UK.

Some possible websites to use, but there are many more:

<http://projectbritain.com/government/laws.htm>

<http://www.parliament.uk/education/about-your-parliament/how-laws-are-made/>
