Summary of changes

What you need to know

- Practicals can be taught by teacher demonstrations or simulations
- Revised equation sheet
- Advance information on exams will be available

There will be a revised equation sheet for the GCSE Combined Science: Trilogy exam in summer 2022 which will cover all the physics equations required in the subject content.

You can [find the equation sheet on the AQA website now](#), in order for students to familiarise themselves with it for revision and exam practice.

This sheet will also be provided as an insert with every question paper.

Advance information on exams will be available to help students focus their exam preparation, there will be advance information on what exams will cover.

This advance information will be available by 7 February 2022, or sooner if the pandemic worsens.

There are no planned changes to the assessments for GCSE Combined Science: Trilogy (8464) in 2022.

Summer 2022 exams will follow the same structure and format as those in summer 2019. They will assess all of the components and assessment objectives described in the specification, including students' knowledge and understanding of working scientifically, maths skills, the apparatus and techniques and the required practical activities.
