

Student Account Activation and Logging In

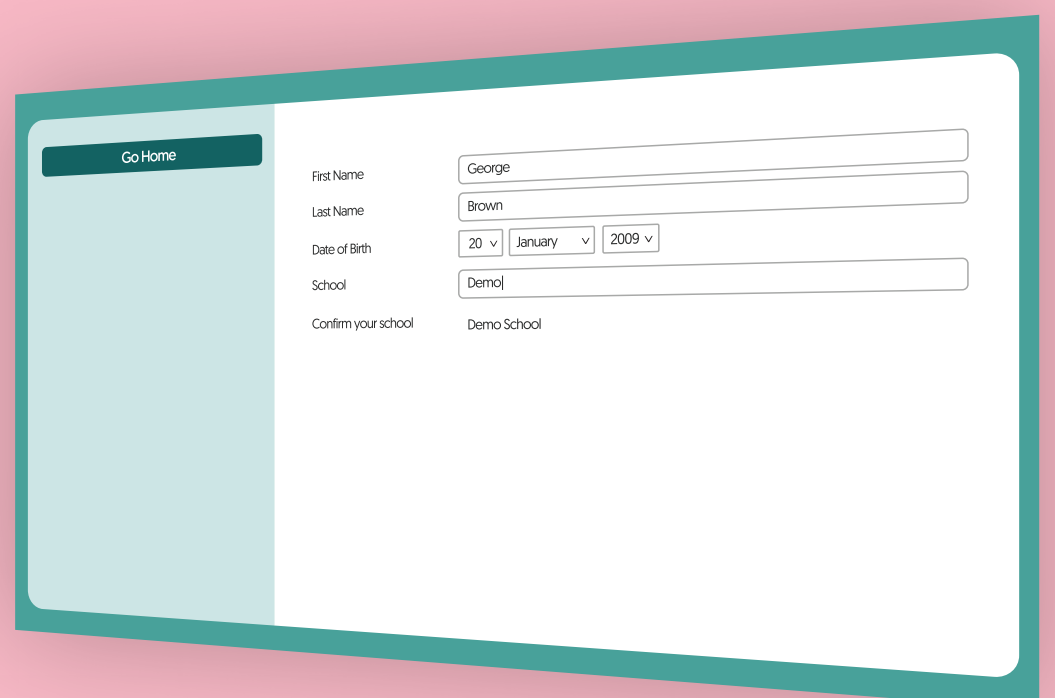

This guide is to help you activate your GCSEPod account and set a username and password.

Watch a video walkthrough of these instructions here:

Follow the Steps Below:

1. Click on this webpage link – GCSEPod – new student users.
2. Enter your first name, surname and date of birth.
3. Start typing the name of your school. The system will recognise your details and give you the option to select your school.

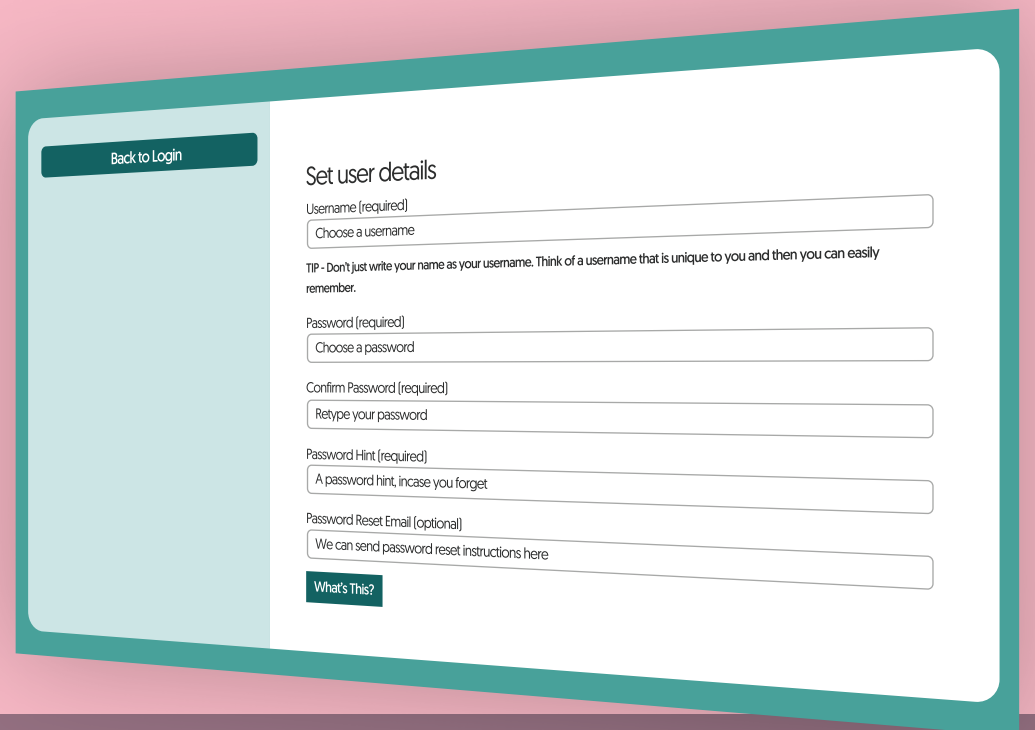

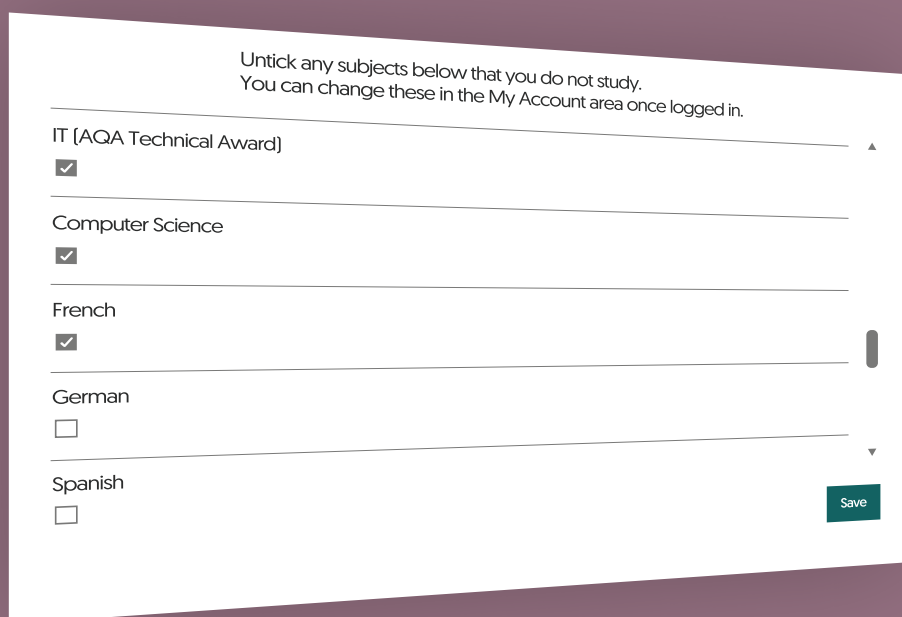

The screenshot shows a registration form with a teal header bar containing a 'Go Home' button. The form fields are as follows:

First Name	George
Last Name	Brown
Date of Birth	20 January 2009
School	<input]"="" type="text" value="Demo"/>
Confirm your school	Demo School

4. Once you have selected your school, complete the following fields:

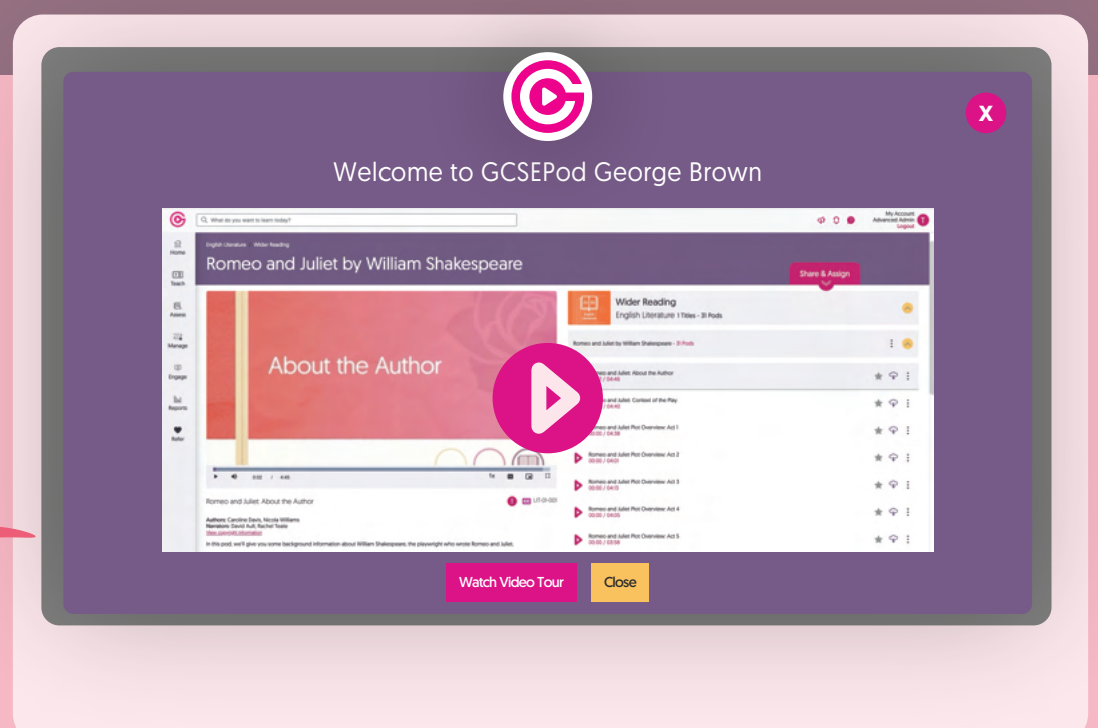

- Username
- Password
- Confirm password
- Password hint
- Password reset email – add your email address into this box incase you need to reset your password.

5. Scroll through all of the subjects and select those you study at school, then click Save.

6. You'll now be signed into your account. Watch the welcome video to take a quick tour of the website.

Happy Podding!

GCSEPod videos are perfect for reviewing your knowledge. They're short, fun and can be watched anywhere.
